

Everyone
wants to do
machine learning...
but few get it right.

Why?

In our annual [AI/ML research report](#), LSEG Labs surveyed hundreds of data scientists working across financial services.

The findings reveal what matters most to companies attempting to scale AI/ML.

Companies
deploying AI/ML
are using third
party solutions

FIRMS WITH OVER 100 DATA
SCIENTISTS ARE MORE LIKELY
TO BUY A FULL EXTERNAL
SOLUTION.

3 Everybody
loves the
cloud!

Only 1%
say their company doesn't use
external compute resources.

But data,
not algorithms,
determine success

MANAGING AND CONNECTING
DATA ASSETS IS STILL A MAJOR
CHALLENGE FOR TODAY'S FINANCIAL
DATA SCIENTISTS.

Re-imagine your approach to data

Tap into a depth of high quality data with a single, consistent experience.

The [Refinitiv Data Platform](#) provides you
with unmatched data coverage

By bringing together and connecting a huge range of high-quality data sources, the Refinitiv Data Platform makes it easier to see relationships and perform analysis.
